Middle School Courses Replacement Parts List

- Chemical Interactions
- Diversity of Life
- Earth History
- Electronics
- Force and Motion
- Human Brain and Senses
- Planetary Science
- Populations and Ecosystems
- Weather and Water

Guarantee

Delta Education is the exclusive distributor of the FOSS products. We work closely with the Lawrence Hall of Science in the manufacturing of the FOSS products to ensure all component parts meet or exceed the specifications of the FOSS program. You can be sure that these products will work successfully with each FOSS investigation.

Delta Education guarantees all of its products. However, if for any reason you are not satisfied with our products, please call us within 30 days for a Return Authorization Number. You are responsible for return shipping charges. A restocking fee of up to 15% may apply. Please call Customer Service at 1-800-258-1302 for information.

Ordering Information

On Every Order

Please include the following information:

- **Purchase Order Number** (not necessary with prepaid orders).
- **Method of payment** for orders (check, money order, MasterCard, Visa, American Express or Discover—please include cardholder's name and address, credit card number, and expiration date).
- **Bill to** customer name, telephone number, and address, complete with zip code.
- **Ship to** customer name, telephone number, and address complete with zip code.
- A **contact name and telephone number** so that we may call you if we have a question concerning your order.
- **Any special shipping instructions.**

An order form is available on the last page of this catalog. Please use Delta Education item numbers and descriptions when ordering.

Our Pricing Policy

Prices are subject to change without notice. Although we make every effort to ensure our product specifications and pricing are 100% accurate, we are not responsible for typographical errors and we cannot guarantee third party pricing.

Shipping and Handling

Standard Delivery

US	12% of your order
International	30% of your order

Minimum Charge

Continental US	\$5.00
AK, HI and Int'l	\$15.00

Standard delivery is UPS Ground or equivalent. Overnight, second-day, and other shipping methods are available at an additional cost. Please ask your customer service representative for details.

Terms

Payment is due upon receipt of invoice. Partial shipments are invoiced separately and payable upon receipt of invoice.

Missing Items

Please check all shipments carefully. Make sure you receive the correct number of boxes, in good condition before signing for shipments. Report any discrepancies or damages within 10 days of delivery to our Customer Service Department.

Living Materials

Items marked with an asterisk (*) include Living Materials Cards. Please allow 3-4 weeks after you send in your card for delivery of living materials. Living materials are not returnable. Should your living materials not arrive alive and healthy, you must notify Customer Service within 48 hours after arrival. In the event of inclement weather your shipment could be delayed to ensure quality product. Living materials can only be shipped in the 48 contiguous states.

Additional Shipping Charges for Live Items

1-3 items	\$12.50
4-5 items	\$22.00
6 or more items	\$30.00

NOTE: All shipments contain more organisms than you will need for your activities. If a few organisms are dead on arrival, be sure to count the remaining organisms to determine if you have enough for your activities before calling for replacement.

Order 24 hours a day:

call 1-800-442-5444

fax 1-800-282-9560

(Mon-Fri 8am-6pm EST)

How to Use the Replacement Parts List

The FOSS Middle School kits contain two categories of materials:

- Materials shared by all classes.** These materials are used by the students in first period, second period, and so on. Most of these materials are not consumed or otherwise removed from circulation as a result of being used. *Note: Some of these materials are consumable items. The consumable items are denoted by an asterisk (*) and listed separately.*
- Materials used by one class only.** Some materials are used up or taken out of circulation when they are used by one class. The kit comes with five class sets of these materials (enough for five classes of 32 students).

This replacement parts catalog is organized to reflect these two kinds of materials. When placing your order, be sure to carefully consider the total number of items you will need in order to serve all of your classes.

Teacher Supplied Materials. The teacher must supply some of the materials needed to conduct the investigations. Complete lists of these materials are included in the Materials section of the FOSS Teacher Guides. Many of these items are available from Delta Education. For your convenience, these items are listed for each course.

Sample Order Page

- The original quantity in the kit.
- A description of the item(s).
- The order number of the item(s).
- The quantity or amount of the item(s) in the replacement package. *Note: The quantity in the replacement package may differ from original quantity in the kit.*
- The price for replacement package unit.
- The order quantity or the amount of packages wanted.
- The price for total number of packages ordered.

Shipment will contain the following items:

- 1 Cell holder, AA
- 1 Diodes, 1 amp
- 1 Soldering iron
- 1 Calculators, TI 12

MATERIALS SUPPLIED BY TEACHER

This kit requires some additional materials that are readily found in most schools. Delta Education offers some of these materials. A complete list of the materials supplied by the teacher is found in the Materials folio of the Teacher Guide.

FOSS Weather and Water replacement parts continued on next page.

PROFESSIONAL DEVELOPMENT AND SUPPORT SERVICES

FOSS and Delta Education are committed to supporting science educators with unrivaled teacher support, high quality implementation, and continuous staff development training.

Evaluate FOSS in your school, district, or classroom

Program Presentations

Regional Managers are available to show you how FOSS helps meet your science curriculum needs. The presentation provides an overview of the program and its components. You have an opportunity to look through the Teacher Guide, work with the materials during an investigation, read the Student Resources Book, share materials management ideas, and discuss implementation and training.

Purchase Evaluation

Your Regional Manager may send select sample materials for you to use and preview. For districts considering adopting FOSS, your Regional Manager can arrange a pilot of the materials with your district science coordinator. Pilot programs provide an opportunity to use program materials in your classroom for an extended time.

Materials Management

We are sensitive to the time and management demands of hands-on science. Let us help you find a solution to store and maintain your kits. We have consultants who specialize in designing and setting up materials resource centers, including database software to reorder materials, making kit circulation and refurbishment manageable and efficient. Contact your regional manager for more information.

Correlations

Correlations to the National Science Education Standards (NSES), Project 2061 Benchmarks, and many state and district-specific science standards are available online at www.DeltaEducation.SchoolSpecialty.com.

Websites

www.DeltaEducation.com

Provides program information, module descriptions, correlations with national and state science standards, a national workshop schedule, Material Safety Data Sheets, and online ordering.

www.lhsfoss.org

Provides a direct link to the Lawrence Hall of Science and the FOSS developers. Program information, research, and links to related sites may also be found here.

FOSS Newsletter

A biannual newsletter is available FREE to all FOSS educators. Mailed every spring and fall, the newsletter includes program news and information, helpful hints, teaching strategies, along with software and book reviews related to the FOSS modules. It also provides a forum for teachers to ask specific questions about the modules, and to share success stories from their own classroom. You can access the FOSS Newsletter electronically at www.DeltaEducation.SchoolSpecialty.com or contact Delta Education to have your name added to the mailing list: Jason.Crowell@SchoolSpecialty.com

Implementation and Inservice Training FREE with minimum purchase

To prove our commitment to teachers, we will provide one day of customized professional development training FREE with every purchase of more than \$20,000 of FOSS modules. For details and information, contact your Regional Manager. Offer limited to purchases of complete FOSS modules. Offer does not apply to orders of line items and refill kits.

Additional inservice training is available upon request. Each training session is customized to meet your particular needs. The cost includes all consultants' fees and travel expenses, plus any kits or materials. Contact your Regional Sales Manager or Delta Education to discuss your needs and schedule a workshop.

National and Regional Institutes and Workshops

FOSS and Delta Education host introductory and advanced workshops around the country each year. These are typically scheduled in conjunction with the National Science Teachers Association's (NSTA) regional and national conventions. Institutes and workshops are designed for all educators—teachers and administrators—who are interested in finding out more about FOSS, the research and development behind the program, and to begin networking with other FOSS users. These programs are offered FREE, however, registration is required. Travel and lodging are at your own expense. For dates and locations, please contact Delta Education.

For more information about any of these services,
call Delta Education at 1-800-258-1302 (Mon-Fri 8am–6pm EST)
or look on the web at www.DeltaEducation.com.
